

DATA GOVERNANCE WEBINAR SERIES

Building Capacity for Bioinformatics Data Management in Africa

SERIES OVERVIEW

This webinar series explores the critical importance of data governance in African Bioinformatics. We will discuss best practices, policies, and frameworks to ensure effective, ethical, and secure management of genomic, biodiversity, and health data, aiming to empower researchers and institutions across the continent.

THIS MONTH'S SPEAKER

Professor Nicki Tiffin

SANBI, University of the Western Cape

**THEME: FOUNDATIONS OF DATA
GOVERNANCE**

SCHEDULE

26 February 2026

3pm CAT

SESSION FORMAT

60 Minutes

45 min presentation + 15 min Q&A
